We believe education is not just about knowledge but about shaping future-ready professionals. Through our initiatives and conferences with industry leaders, we strive to inspire and empower you to meet global challenges with confidence.

CA Students Shine at SAFA Quiz and Public Speaking

I'm delighted to share that our CA students have made us proud by securing the 1st Runner-Up position at the prestigious SAFA Quiz and Public Speaking Event held in Sri Lanka on 30th April 2025. Their confidence, clarity, and commitment stood out on the international stage. This remarkable achievement is a testament to the power of passion and perseverance. May it inspire us all to aim higher, speak boldly, and create meaningful impact. Heartfelt congratulations to the winners, this is just the beginning of many more milestones to come!

Invitation to Engage: Monthly Interactive Sessions via Digital Classroom for Personal and Professional Growth

I am pleased to inform you of the success of our recent PAN India interactive sessions, conducted via our digital classroom platform, in collaboration with Branch Managing Committees, students, and faculty members. These sessions have proven to be an invaluable opportunity for identifying and addressing the evolving academic and professional challenges faced by our students.

Moving forward, we are delighted to offer a series of monthly interactive sessions through this platform. These sessions will provide an excellent opportunity for you to engage directly with leadership, share insights, and discuss important matters related to ongoing IT and Soft Skills batches, as well as other challenges faced by students.

We encourage all students to actively participate in these sessions, as they offer an invaluable chance to connect, share experiences, and receive guidance on overcoming challenges while advancing in your professional journey.

Standing Strong Together: Supporting your CA Journey with Resilience and Care

We hope you and your loved ones are safe. The postponement of the CA exams amidst current challenges has tested many of us, but your resilience and commitment are truly commendable.

The Board remains fully committed to minimizing any disruption to your academic plans, including IT and Soft Skills training. All sessions will be conducted in line with regulatory guidelines, ensuring your eligibility for exams and practical training is safeguarded. Stay focused and confident, this phase is a testament to your strength. We are with you at every step.
