

Dear CA Aspirants,

As December unfolds, it offers a unique opportunity for calm reflection and renewed purpose, inviting us to balance peaceful contemplation with intentional action. This season encourages striving for excellence while maintaining clarity of mind and ethical focus. उदित होता है सूरज — जागो, चमको, और कुछ कर दिखाओ! (The rising sun inspires us to awaken, shine, and achieve.) Let December motivate us to remain disciplined, ethical, and purposeful as we contribute meaningfully to our nation's progress

Learning Together, Leading the World

The recently concluded All India Excellence Conference and our flagship International Conference of CA students reaffirmed the strength of collective intellect. Students from across the country came together to exchange ideas, broaden perspectives, and demonstrate the professionalism our evolving landscape demands ethics, adaptability, and a global outlook.

Your active engagement and thoughtful contributions reflect your readiness to lead with integrity and insight in a rapidly changing world. The success of these conferences stands as a testament to your commitment, discipline, and pursuit of excellence. I extend my sincere appreciation to all students for your remarkable participation and for making these events truly impactful.

Continuing the Journey of Excellence-CA Students' Conference 2025

Learning is a lifelong journey, and December brings fresh chances for growth. This month features a diverse lineup of student conferences across the country, each designed to strengthen analytical thinking, enhance professional skills, and broaden academic horizons.

At the national level, conferences will be hosted by WIRC-Mumbai (5-6 December), Indore (6-7 December), Ghaziabad (6-7 December), and Coimbatore (12-13 December), offering large-scale platforms for deep intellectual exchange. Mega-level engagement continues with the Faridabad Conference scheduled for 15-16 December, bringing students together for high-impact learning experiences. Branch-level conferences in Chengalpattu (5-6 December), Akola (13-14 December), and Ichalkaranji (20-21 December) provide focused forums for interactive learning and skill development.

Each event offers platforms for deep intellectual exchange, interactive learning, and skill development. Students are encouraged to participate wholeheartedly, to listen, question, interact, and explore curiosity, evolving into thoughtful, competent professionals.

Empowering Future Professionals Through Intelligent Learning- AURA-Artificial Intelligence Understanding for Rising Achievers

Since its launch on 1st August 2025, the AURA-AI initiative has

blossomed into a truly transformative learning movement. With over 3,000 students already empowered through its dynamic workshops and many more preparing to join AURA-AI is steadily shaping a new generation of technologically confident and future-ready professionals.

In harmony with the rapidly evolving digital landscape of the accounting world, we are proud to unveil **AURATHON** a prestigious AI Hackathon crafted exclusively for those who successfully complete the two-day AURA workshop at their respective branches. This platform is not just a competition; it is an invitation to imagine, innovate, and inspire.

I wholeheartedly urge every eligible student to seize this golden opportunity and let your creativity, intelligence, and passion shine. AURATHON will unfold across three exciting stages: the first two rounds will be conducted online, and the top ten brightest minds will advance to the Grand Finale, to be held in person during the National Talent Search 2025-26, alongside the Poetry and Extempore competitions. Embrace this chance to let your intellect and creativity shine as you step confidently into a future shaped by technology.

Digital Infrastructure Modernisation and Smart Panel Interactive Sessions

I am pleased to share that the Board of Studies (Operations) is taking significant strides to strengthen the digital learning ecosystem for our students. As part of our infrastructure enhancement plan, more than 2,000 new computers are being procured to modernise IT labs across the country, ensuring a faster, seamless, and more efficient training experience. We have also introduced monthly interactive sessions through smart panels, enabling real-time learning, active participation, and immediate resolution of student queries during ICITSS and AICITSS classes. The Board's commitment to a robust digital ecosystem remains strong.

Wisdom & Purpose of CA students

Success for a CA student rest in balancing knowledge with wisdom and ambition with responsibility. As India advances toward a one-trillion-dollar economy, this era offers a defining opportunity to learn with passion, lead with integrity, and contribute meaningfully. The Board remains committed to guiding this new generation of capable and ethical professionals.

To empower and uplift your journey, join our RUN @100 Series every Tuesday and Friday from 4:00 PM to 5:00 PM. These sessions are designed to inspire, ignite motivation, boost morale and confidence, foster gratitude, encourage growth, and help you master the inner game essential for personal and professional excellence.

I urge all students to stay calm, maintain a healthy routine, focus on the curriculum, practise consistently, and excel in the upcoming January examinations. Stay updated by following [@bosoicai](#), and for more personalised insights, connect with me at [@ruwatiaofficial](#).

With warm regards and best wish for a purposeful and fulfilling journey ahead.

CA. (DR.) ROHIT RUWATIA
CHAIRMAN, BOARD OF STUDIES (OPERATIONS)
