Complete Your Training on Time – A Step Towards a Smooth September Exam Journey

In the structured and evolving journey to become a Chartered Accountant, the Integrated Course on Information Technology and Soft Skills (IT/OC/Adv. IT/MCS) are not just formalities but successfully undergoing these mandatory trainings would play a pivotal milestone in shaping a well-rounded professional. These training courses are designed to seamlessly bridge academic learning with real-world professional expectations, equipping students in acquiring critical skills in technology, ethics, communication, and leadership.

With the September 2025 examination cycle approaching, students are strongly advised to complete their mandatory training well in advance to ensure smooth eligibility to appear in Final Examination. Delaying the completion of these training courses often leads to last-minute challenges, which can easily be avoided with proactive planning.

Recognizing the urgency and importance, the Board of Studies-Operations has taken significant steps to expand accessibility, launching additional special batches across PAN India and advising branches to conduct training courses even with a minimum number of students. This initiative would ensure that no student is left behind due to logistical constraints.

We encourage you to enrol without delay, adhere to the training schedule, and treat these training programs as valuable

opportunities for personal and professional developments. Completing your IT/OC and MCS/ Adv.IT training on time is not just a compliance step it's a strategic move towards your successful CA journey.
